SMALLER FOOTPRINT

BIG POWER & VERSATILITY

For projects that need more power and productivity within a smaller footprint, these machines are the ideal solution. They combine a large excavator design in a smaller, heavy-duty frame. The SY135C and SY155U come factory standard with primary and secondary auxiliary circuits and quick-coupler plumbing.

The SY75C, SY95C and SY135C have a fixed boom with a conventional tail swing. The SY155U has a fixed boom with a reduced tail swing and a transport width of 102". The SY135C and SY155U are ideal solutions for the 13t and 15t excavator class and are engineered to a higher spec.

**WE'VE GOT
YOUR
BACK**

To provide peace of mind and ensure maximum uptime, SANY backs all its equipment with robust standard warranties. That's our commitment to keeping your fleet running at peak performance. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs. You can trust SANY to keep you moving, year-round.

KEY FEATURES ||| SY75C, SY95C, SY135C, SY155U

POWER

These machines pack a punch, with dig depths ranging from 14' to 18' and a variety of tail swing configurations. They combine class-leading lifting capacity, breakout force and dig depth.

SERVICEABILITY

Because ease of service means back in service, SANY builds all its equipment with trusted components, straightforward designs and accessible service points.

TRANSPORTABILITY

These excavators are a great solution for municipalities that need high performance and productivity while still being easy to transport.

COMFORT

These excavators are outfitted with roomy, climate-controlled operation stations with responsive and intuitive controls and high visibility to see the side of the road and laborers in the trench.

VALUE

With fully loaded standard configurations and the industries best warranties, SANY delivers true value. Each of these machines has a robust design and is outfitted with a high powered Yanmar engine to keep you running.

INDUSTRY-LEADING WARRANTIES

To provide peace of mind and ensure maximum uptime, SANY excavators are backed by a 5-year/5,000-hour industry-leading standard warranty.

SUPPORT

SANY offers outstanding aftermarket support. Our network of local dealers will partner with you for routine maintenance and will be there for warranty repairs.

OPERATORS ARE THE REAL ENGINE OF THE JOBSITE

That's why SANY always makes the operator experience a priority. Our small, fixed boom excavators provide comfort while making important features like the dozer blade standard to suit various applications. Cab interiors are spacious, climate-controlled, and provide high visibility to keep operators engaged.

Built to be small but powerful and extremely reliable so your uptime is fully maximized. From the smooth hydraulics to the high-performance action and safety features, your operators will excel at earthmoving, material handling, demolition, tunneling, mulching or debris removal.

LOW LEARNING CURVE, HIGH PRECISION

In these machines, operators will be more effective than ever before thanks to the load sensing variable displacement systems controlling engine output and keeping the machines' energy demands efficient. The controls are intuitive and uncomplicated, giving them greater precision and control over their work. Because all these excavators have a quick coupler circuit plumbed to the end of the stick, it makes adding a quick coupler easier and less expensive. That way operators can switch out tools quickly on the jobsite and keep the work moving.

SAFETY FIRST

Since poor visibility is a recipe for disaster on the jobsite, all models come standard with a bright LED package to allow the work to stay highly visible even in the lowest lighting conditions. All come standard with a rearview camera.

SMALL FIXED BOOM EXCAVATORS

SERVICE, VALUE & SIMPLE OPERATION

EASE OF SERVICE

When we say that SANY machines are built to endure, we're really talking about service. SANY equipment is intentionally designed to be easily and efficiently serviced with features such as wide compartment doors and ground-level access to make maintenance more efficient. Because ease of service means back in service.

OPERATOR PREFERRED

With productivity, ease of operation, and safety at the forefront of our design, these are the ultimate small excavators. They allow operators a higher level of performance and reliability. The learning curve is low because these machines are intuitive allowing new operators to get straight to work with confidence. They have a comfortable cab to always keep them engaged and provide high visibility of the jobsite.

BUILT TO ENDURE

These excavators are more than ready to withstand the pressures of the job. Every day, across America, we know that small to medium American-owned businesses are counting on their SANY equipment to dig, haul, lift and clear without fail. That's why all SANY excavators are backed by the industry's strongest standard warranty at 5 years/5,000 hours.

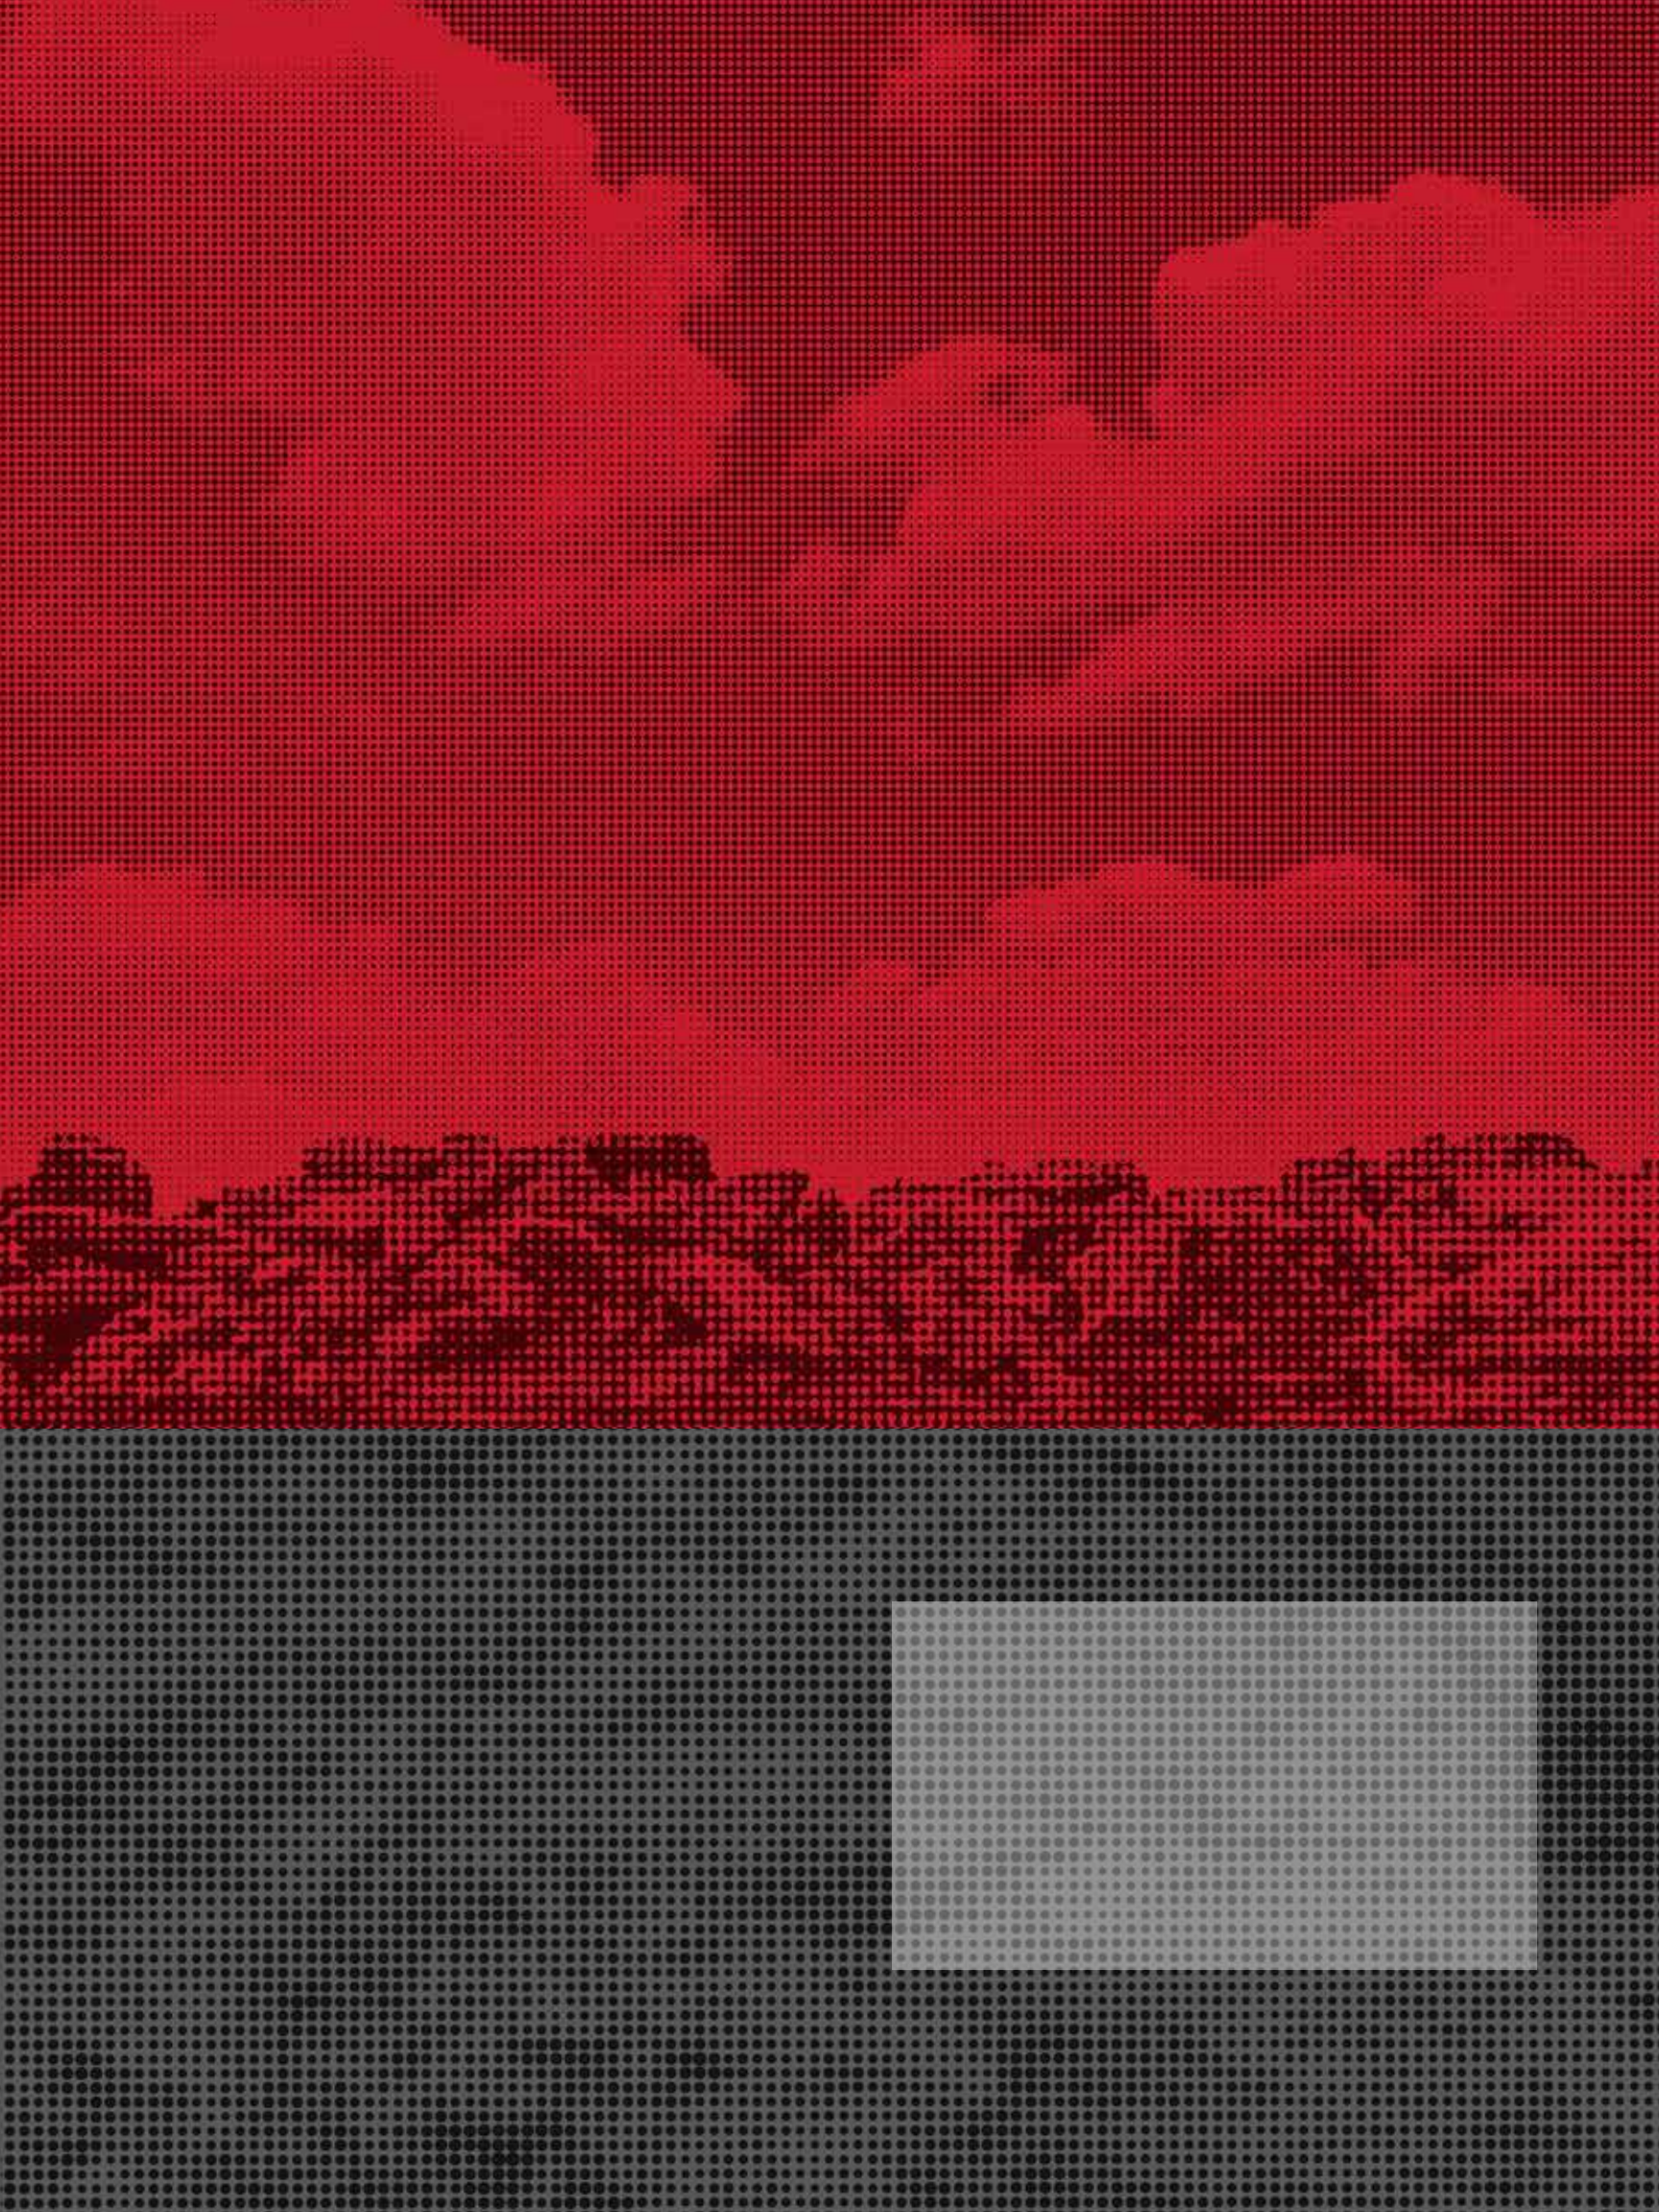

LOW-COST FINANCING

With SANY Capital, you can take advantage of a network of lenders offering different types of financing programs to meet your requirements when purchasing SANY equipment. It's a more flexible way to get heavy equipment for your business with customized financing solutions. So, go ahead, pick out the SANY equipment you need to tackle your next big project. And rest easy knowing that SANY Capital is standing by to make sure your financing process is always fast, simple, and convenient. SANY Capital and its lender partners stand behind you with 100% financing options covering your entire equipment purchase, including attachments, delivery, and taxes.

The SANY logo is displayed in white, bold, sans-serif capital letters within a red rectangular box. The background of the entire lower section of the advertisement is a dark grey with a fine, repeating dot pattern.
