

A yellow SANY excavator is shown in action, lifting a large bucket full of reddish-brown soil. The excavator is positioned on a pile of dirt, with its arm extended upwards. The background features a clear blue sky and some greenery. The SANY logo is visible on the boom and the side of the machine.

A large yellow SANY SY385C excavator is shown in a rugged, mountainous environment. The excavator is positioned on a rocky slope, with its arm extended upwards. The background features steep, rocky cliffs with patches of snow or frost. The excavator's body is yellow with black accents, and the SANY logo is visible on the arm. The model number SY385C is printed on the side of the machine.

**WHY SANY  
LARGE EXCAVATORS?**

**BIGGER  
IS BETTER.**

Built to endure the hardest working environments, SANY's large excavators have been newly redesigned for high performance based on operator feedback. Our entire large excavator family is outfitted with fast and strong hydraulic systems and includes a standard secondary auxiliary circuit. The SY385C and SY750H feature a dedicated auxiliary pump for specialized excavator attachments. Those models also feature our new cab with ergonomic controls and a 10.4" touchscreen display. Powerful, tried and true Cummins engines run every SANY large excavator making them reliable and more productive thus maximizing your uptime. And as always, we stand behind these machines with one of the best warranties in the business.

# LARGE AND IN CHARGE

Featuring an engineered balance of high-flow hydraulic, speed, power and size makes these machines highly efficient and productive. They're designed to be run for long periods of time with operator comfort in mind. Daily maintenance is streamlined with easy to read site glasses and well positioned grease points. We've included new features on the SY385C and SY750H such as an easy to navigate touchscreen display, push button start, and blind side camera. The dual swing drive motors we've introduced on the SY750H model makes for fast swing performance reducing cycle time which leads to higher productivity. With all these improvements, this family remains easy to own and easy to operate.

**WE'VE GOT  
YOUR  
BACK**

To provide peace of mind and ensure maximum uptime, SANY backs all its equipment with robust standard warranties. That's our commitment to keeping your fleet running at peak performance. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs. You can trust SANY to keep you moving, year-round.

**KEY FEATURES ||| SY365C LC, SY385C, SY500H, SY750H**

## PRODUCTIVITY

Massive breakout force and fast cycle times combined with a long, heavy-duty undercarriage for stability round out the productivity trifecta so that operators can get more work done in a day.

## PERFORMANCE

Robust Cummins engines with selectable power modes and trusted hydraulic components give operators the power and reliability they need.

## ATTACHMENTS

Auxiliary flow and pressure can be configured through the display. The operator can also switch between one-way to two-way hydraulic flow on the primary auxiliary circuit from the monitor. A secondary auxiliary circuit and dedicated auxiliary pump come standard which allow operators the necessary flow and pressure to suit whatever attachments the job requires.

## COMFORT

SANY large excavators have roomy, temperature-controlled cabs with heated, air ride suspension seats. Adding to the operator comfort in the SY385C and SY750H are adjustable armrests with seat mounted joysticks. In all models, operators have high visibility with camera monitoring from the display to give operators peace of mind and keep them engaged.

## INDUSTRY-LEADING WARRANTIES

To provide peace of mind and ensure maximum uptime, SANY wheel loaders are backed by a 5-year/5,000 hour industry-leading standard warranty.

## SUPPORT

SANY offers outstanding aftermarket support. Our network of local dealers will partner with you for routine maintenance and will be there for warranty repairs.

# TAKING SAFETY & COMFORT TO THE NEXT LEVEL

Safety is not a compromise. With that in mind, we designed our new machines, the SY385C and SY750H to feature more handrails, improved traction on the catwalks, better visibility through the large, touchscreen monitor to expand camera views and an additional blind side camera. An operator who is comfortable and has a clear view of the jobsite is more in control and engage which maintains the integrity of site safety.

## POWER AND PERFORMANCE

Powered by Cummins engines ranging from 275 horsepower up to the new Cummins X15 engine which goes up to 524 horsepower, SANY's large excavators will give you reliable, consistent power all day long. No matter the job, SANY excavators provide excellent breakout force from our SY365C LC at 43,163 lbf all the way up to the massive breakout of the SY750H at 92,172 lbf. The SY750H achieves the highest cycle times in the family by using a dedicated swing pump in conjunction with dual swing motors. And both the SY385C and the SY750H come standard with secondary auxiliaries along with a dedicated rotate circuit. That means you save time and money when the work demands special attachments to keep the job on schedule.

## SAFETY

SANY large excavators employ many advanced features to enhance jobsite safety and keep projects moving. Having a standard rear view camera on all large excavator models with an additional blind side camera on the SY385C and SY750H contributes to improved spacial awareness in the work area. The standard bright LED work light package means that day or night your work is safely illuminated.

# **LARGE EXCAVATORS** **SERVICE, VALUE &** **SIMPLE OPERATION**

## **EASE OF OPERATION**

When we say that SANY machines are built to endure, we're really talking about service. SANY equipment is intentionally designed to be easily and efficiently serviced with features such as wide compartment doors and ground-level access to make maintenance more efficient. Because ease of service means back in service

## **GREAT OPTIONS FOR ADDED MACHINE PRECISION AND CONTROL**

Enhancing SANY's industry-leading equipment with Leica Geosystems' cutting-edge but easy-to-use machine control technology enables greater precision for excavating and allows machine operators at various skill levels to increase their productivity while lessening the intensity of tasks. This helps keep workers safe and results in less wear and tear on machines. SANY dealers across the nation can offer you a variety of Leica Geosystems machine control solutions through leasing and purchasing agreements, with installation and support by certified Leica Geosystems dealers.

## **LOW-COST FINANCING**

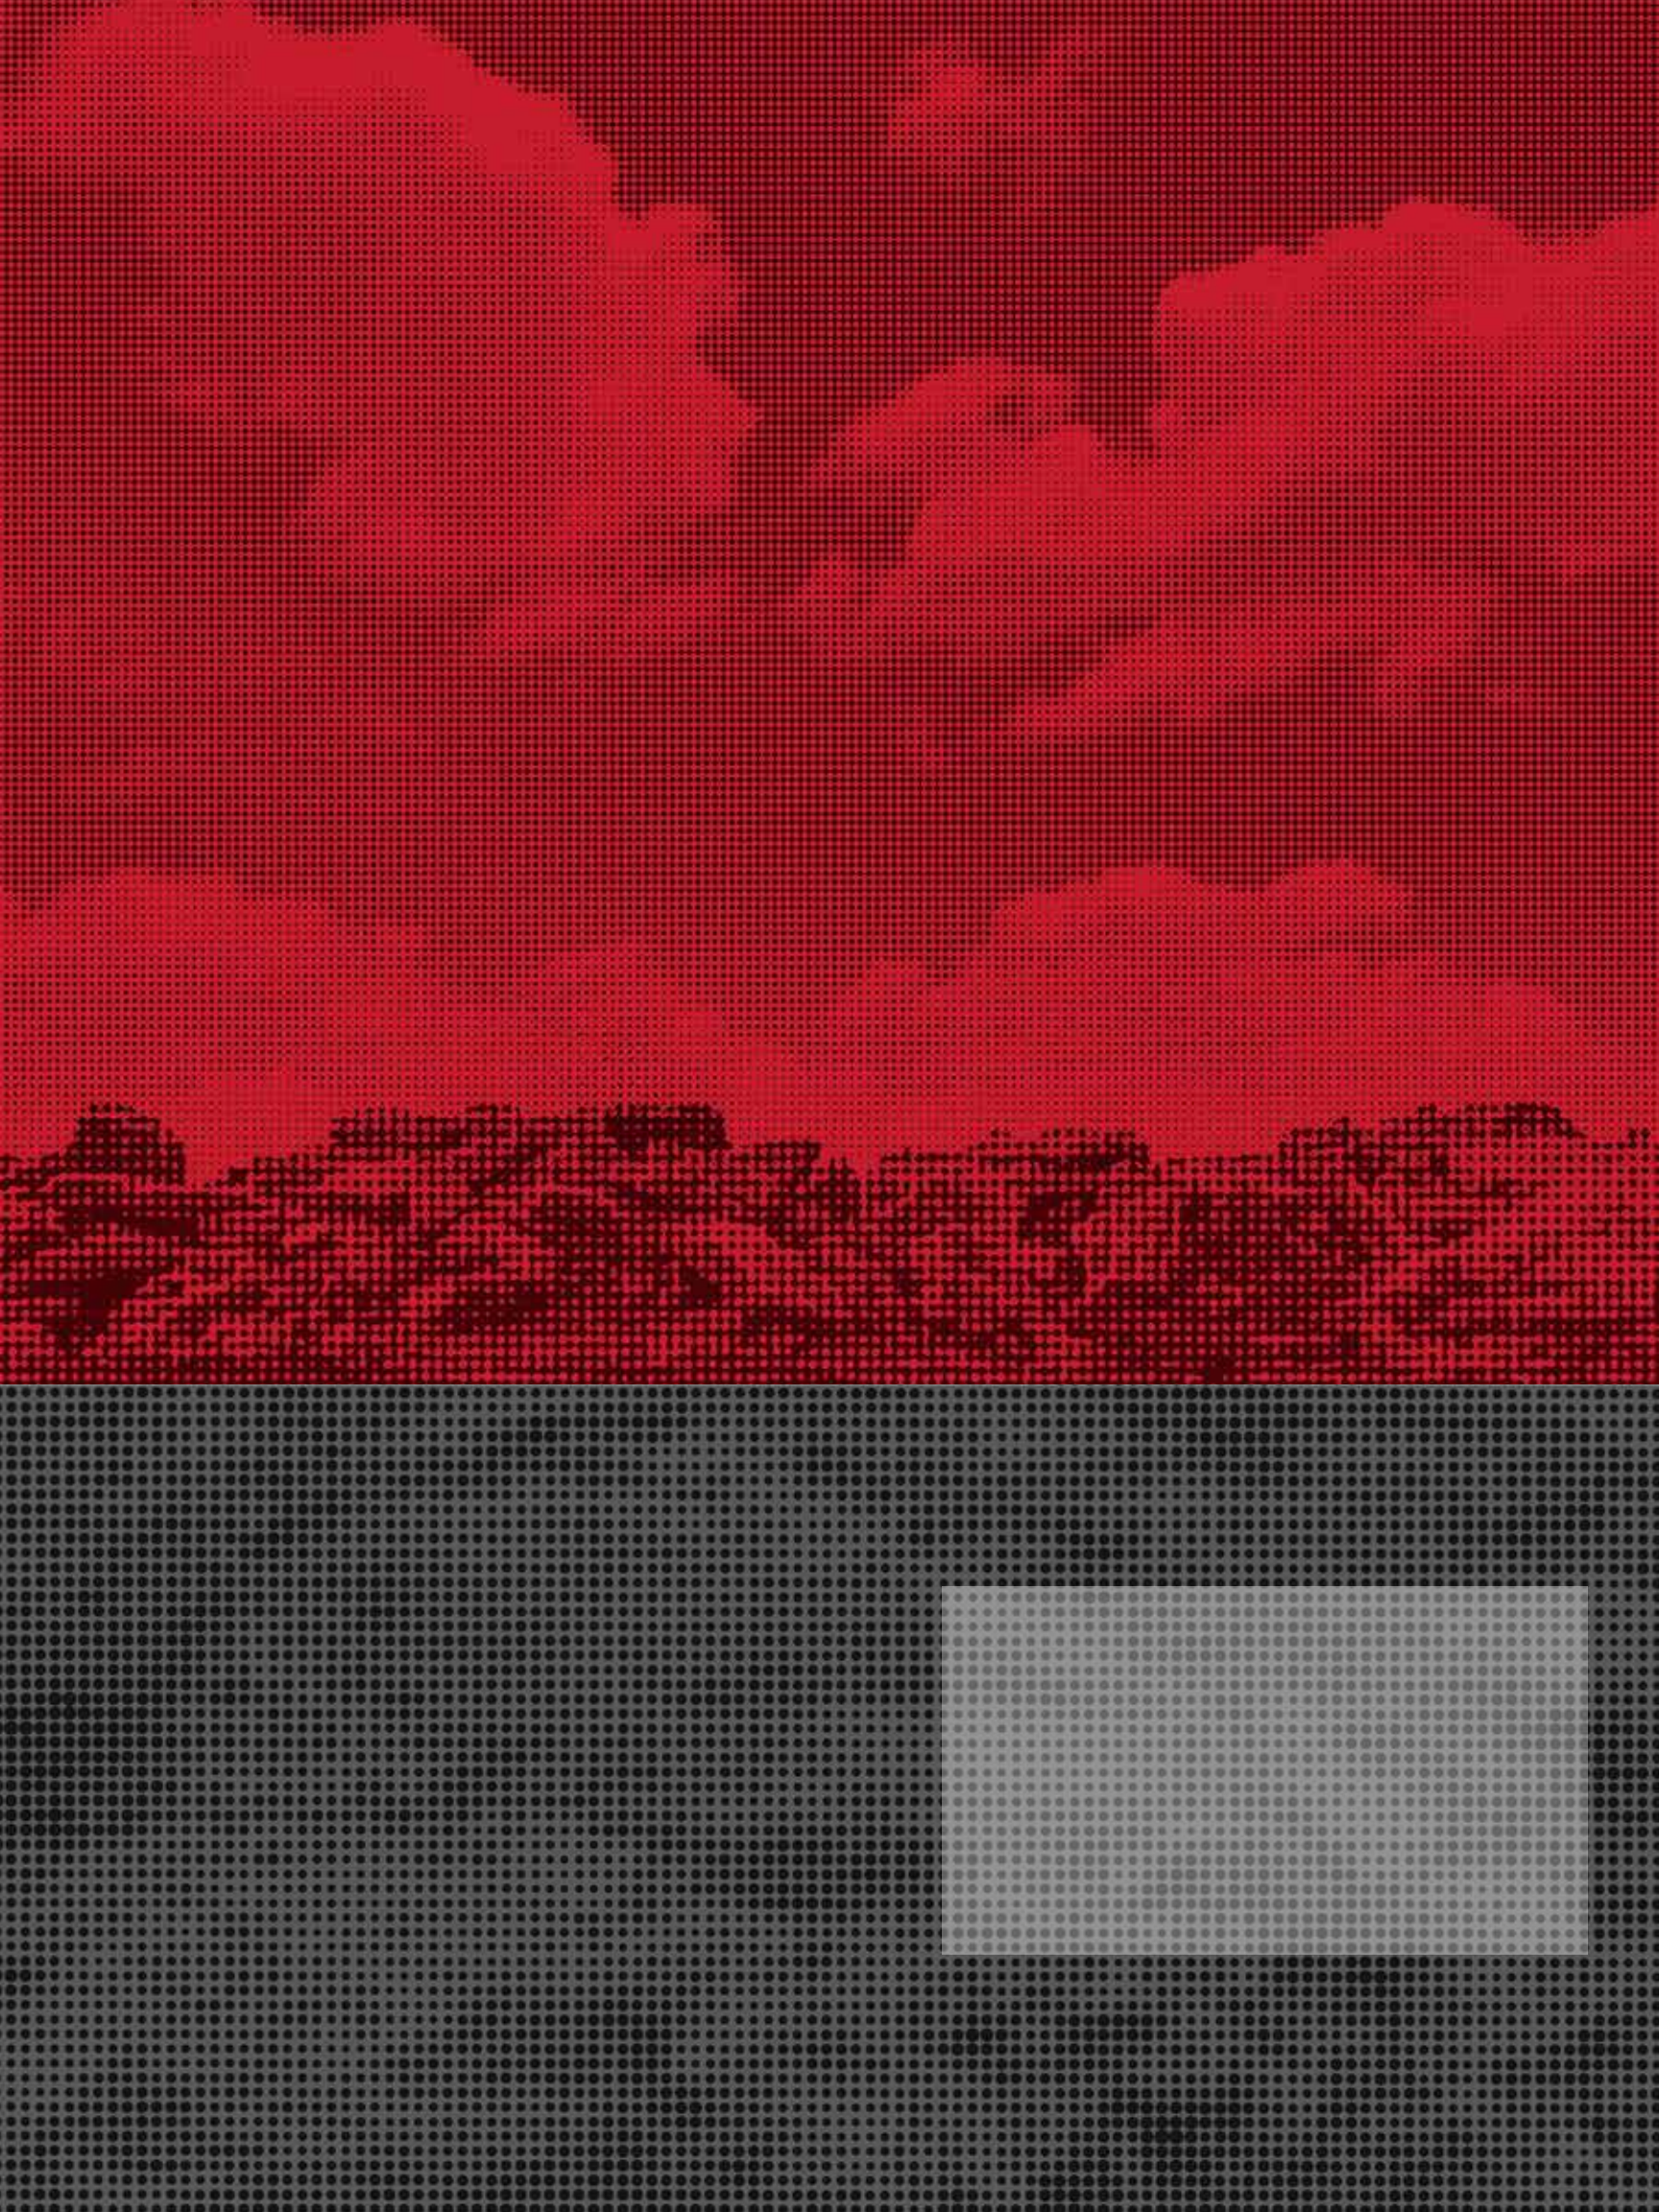

With SANY Capital, you can take advantage of a network of lenders offering different types of financing programs to meet your requirements when purchasing SANY equipment. It's a more flexible way to get heavy equipment for your business with customized financing solutions. So, go ahead, pick out the SANY equipment you need to tackle your next big project. And rest easy knowing that SANY Capital is standing by to make sure your financing process is always fast, simple, and convenient. SANY Capital and its lender partners stand behind you with 100% financing options covering your entire equipment purchase, including attachments, delivery, and taxes.

The SANY logo consists of the word "SANY" in white, bold, sans-serif capital letters, set against a red rectangular background.
